ABOUT MYSELF

As a final-year Computer Engineering student and developer at the Apple Developer Academy, I combine a solid analytical foundation with a strong practical mindset. I approach software development with the goal of creating robust, end-to-end solutions that address real-world problems.

I consider myself a versatile and highly adaptable professional: I quickly learn new technology stacks and enjoy taking ownership of the entire project lifecycle, from architectural logic down to the user experience (UX).

My experience in diverse work environments and multidisciplinary teams has taught me the value of problem-solving under pressure, effective time management, and clear communication. My goal is to bring this versatility and result-oriented attitude to dynamic engineering teams.

EDUCATION & TRAINING

Bachelor's Degree in Computer Engineering

Università degli Studi di Napoli Federico II [Current]

City: Napoli | **Country:** Italy

Field(s) of study: global.iscedCodes.null: • 0788 | **Level in EQF:** 5

High School Applied Sciences Diploma

Liceo Scientifico Carlo Urbani

City: San Giorgio a Cremano | **Country:** Italy

Field(s) of study: Natural sciences, mathematics and statistics: • Inter-disciplinary programmes and qualifications involving natural sciences, mathematics and statistics | **Level in EQF:** 5

Apple Developer Academy Student

Apple Developer Academy

Field(s) of study: Information and Communication Technologies: • Computer use • Software and applications development and analysis • Information and communication technologies not elsewhere classified

WORK EXPERIENCE

B&B "Il Porto" - Italy, Napoli

IT & Communication Manager

My responsibilities included managing reservations, handling guest check-in/check-out, and overseeing general room operations. I revamped the online booking system, which enhanced the guest experience and improved the accuracy of room availability. Additionally, I introduced a room maintenance tracking system, significantly reducing response times and elevating overall service quality. Interacting daily with an international clientele also allowed me to develop strong English communication skills.

Escape Room "Escape BOOM" - Italy, Pollena Trocchia

Room Master

I managed direct customer interactions by setting expectations, providing clear instructions, and ensuring participant engagement. Furthermore, I took on the responsibility of managing and maintaining audiovisual devices, smart lighting, and other technological elements within the game rooms. This role allowed me to develop practical problem-solving abilities, strong public interaction skills, and technical competence, preparing me to tackle complex challenges in fast-paced interactive environments.

SKILLS

Software per UX prototyping (Figma, Sketch) | Programmazione C, C++, Java, Assembly, SQL, Swift | Apple OS and work suite | Analisi dei Requisiti | Padronanza del Pacchetto Office (Word Excel PowerPoint ecc) | Gestione autonoma della posta e-mail | iOS | Windows | Utilizzo del browser | Posta elettronica | Social Network | Elaborazione delle informazioni | Microsoft Office | Videomaking digitale | App Design | programming software engineering software development | programmazione ad oggetti JAVA | DevOps | understand spoken English | Xcode | integrated development environment software | Unity (digital game creation systems) | Game Designer | environmental design | interact verbally in English | write English | understand written English | Google
